The death of Mr. J. L. Torrey whose illness was noted in this department, came suddenly before the paper was issued, but it was after the Crescent City page was printed that the sad news reached this office. Notice of his death was therefore printed on the Palatka local page. The death of this aged man is a distinct loss to the place, and it will be many a day before the memory of his personal cheerfulness is forgotten by the people of Crescent City. Though 80 years of age, he led an active life up to within a few days of his death. There was no death struggle, no long season of suffering, but as befitted one of his sunny disposition, when the time of his departure came he simply "drew the drapery of his couch about him and laid down to pleasant dreams." Rev. E. P. Butler conducted the funeral at the home and the interment was in Eden cemetery.

The marriage of Miss Lucie G. Chamberlin daughter of Mr. and Mrs. Chas. L. Chamberlin, to Mr. Mack Daniel Hardy of Oklahoma, took place at the home of the bride's parents at 2:30 p. m. last Thursday, the 23d inst. and was a most happy affair, attended by the near relatives and the many young lady friends of the bride. Notice of the event was not made until the day before, and was not only a surprise to the people, but to the contracting parties themselves. While these young people had been engaged for some little time, the wedding day had not been fixed. But Mr. Hardy's home being so far away, they agreed to "have the thing over with" and go to Oklahoma, which they did. Rev. E. P. Butler officiated. Several automobile and carriage loads of young people and relatives of the bride accompanied the happy couple to the train and wished them a life of happiness in the far west. The bride was deservedly popular with the young people.

Mr. Campbell Takes Exception.
Editor PALATKA NEWS:
In the last issue of your paper I notice some criticisms of some of the sanitary features of Crescent City. It appears to me that our critics gave a very superficial consideration of what it costs to keep all of the public works of the town in perfect condition at this time.
The town officials have done a good deal for the town in the way of public improvements; but on account of the small revenue of the town, they have had to leave a good many things undone. A majority of the present officials have served the town for some half dozen years or more and they would like to retire for a rest. Will some of these critics generously come forward at the next election and offer to serve the town for awhile?
The work is grates, gentlemen, and depend upon it, after you have done all for the town that the revenue will permit, some people will be finding fault with you, the same as you are with us now.
W. B. CAMPBELL,
President Town Council.
Crescent City, Sept. 26th, 1916.

Mr. W. B. Campbell, president of the city council and author of the above letter, is one of the most faithful, conscientious and hard working officials Crescent City has ever had. He is also one of the most sensitive. The News last week voiced the criticism of Capt. John D. Pigue, who complained that the several cases of typhoid fever in his family the past summer got their start from the private sewers which emptied on the shore of the lake near his home. Dr. Geo. L. Calhoun gave it as his opinion that the fever in Capt. Pigue's family was originally traceable to these sewers. The editor of the News has examined and is sure the sewers did empty as stated by Capt. Pigue. The News does not know whether there is an ordinance against such sewers or not, but if not, it feels confident there should be. To pass such an ordinance, and one compelling the Cash water system to flush its pipes at stated intervals, would not take from the revenues of the town. If there is already such an ordinance the council has done its full duty, and the responsibility rests with the mayor, whose duty it is to enforce ordinances. The enforcement of such ordinances, where resisted, would add to, rather than take from, the town's revenues. Capt. Pigue did make this "kick." He is a citizen and tax payer, and the columns of this paper are always open to any reputable citizen who feels he has a grievance. There will be few men who will take the position that to allow private sewage to empty upon the shores of the lake is in the interest of health, or that an ordinance to prohibit such a flow would be a drain upon the town's finances.

Mr. Campbell is one man who knows it to be the duty of town officials to enact and enforce wholesome sanitary laws, and the News believes that if he will re-read the criticism he will see nothing in it that in any way reflects on him, other than it may point out a line of aldermanic duty he may have overlooked.

Bringing Down the Average.
"It is said that there are 120,000 bats on the average human head," said the baldheaded man.
"Too bad that you've pulled the average down so low, my dear," said his wife.—Yonkers Statesman.

A Cruel Companion.
"Why does he say that her face is the sign of a woman's poems?"
"Because it has some hard lines to it."—Pittsburgh Courier.

Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI

It Will Help You

Mrs. Katie Burlison, Goreville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my housework and am in much better health than I was before." Try it.

Take HERBINE for all disturbances in the bowels. It purifies the bowel channels, promotes regular movements and makes you feel bright, cheerful and vigorous. Price 50c. Sold by Ackerman-Stewart and J. H. Haughton.

Wheat.
Wheat is the chief basis of the national nourishment of Englishmen, Frenchmen, Spaniards, south Italians—in North Italy maize takes precedence—and Hungarians, and it holds complete supremacy in North America and Australia. In German speaking central Europe wheat has a large consumption, but not to the extent that it is used in the lands named. The principal food is rye bread, not because of the poverty of the people, but because its taste is better liked. In Russia rye bread has a decided lead.

Yellow complexion, pimples and blemishes on the face or body can be gotten rid of by doctoring the liver, which is torpid. HERBINE is a powerful liver corrector. It purifies the system, stimulates the vital organs and puts the whole body in fine vigorous condition. Price 50c. Sold by Ackerman-Stewart and J. H. Haughton.

Bullock Skin Boats.
There are few more primitive methods of transportation than those in use today by natives of northern India who make their homes in the vicinity of the swift flowing Sutlej. The boats of these aborigines are nothing more or less than bullock skins inflated by the breath of the natives themselves. Two natives may be seen hard at work filling the skins with air. Having inflated them to their satisfaction, they will leap aboard and paddle themselves across the river, great skill and strength being necessary to sustain their equilibrium during the passage. But even should the boats overturn they are easily righted, and the natives are without exception expert swimmers.

Check a cough or cold in the lungs before it develops a serious case. BAL-LARD'S HOREHOUND SYRUP is an effective remedy for all soreness or congestion in the lungs or air passages. Price 25c, 50c and \$1.00 per bottle. Sold by Ackerman-Stewart Drug Co., and J. H. Haughton.

Weighing the Baby.
The grocer's first question to the man who had asked him to weigh a fattened, a pair of curling tongs, a French novel and a jar of ground coffee at the same time seemed irrelevant. "Boy or girl?" said he. "Girl," said the man. Then the grocer dumped the miscellaneous assortment into the scales and said, "Nine and three-quarter pounds." "Happens every little while down here, where not many people have scales of their own," he explained. "They want to weigh the baby the minute it arrives. So they balance it with odds and ends that exactly tip the beam. Then the next day they weigh the things and find out baby's weight."—New York Sun.

What He Doubted.
Scribbles—Quillier tells me he has a great mind to write a book. Dribbles—I don't believe it. Scribbles—Don't believe what—that he can write a book? Dribbles—Oh, he may be able to write a book, but I don't believe he has a great mind.—Chicago News.

When you have an ached, stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. Haughton.
